### DETAILED ACTION

1. This office action is response to Applicant's amendment received on February 8, 2001.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-22 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It is unclear how the corresponding guide spindles are driven. The specification states that "the two guide spindles 7a, 7b are coupled in a driving housing by means of a belt gearing so that only one of the two guide spindles 7a, 7b is to be driven through the relevant stud attachment 9a, 9b." From this description, it is unclear what drives the stud attachments. It is also unclear how the stud attachments operate in conjunction with the belt gearing in the driving house means to drive the guide spindles."

***Allowable Subject Matter***

4. Claims 1-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.
